SharkBite® CashAcme® HoldRite® John Guest®

The **EB-25 Plus** brings state-of-the-art water control technology to pressure regulators. The accurate flow control and pressure regulation of the **EB-25 Plus** eliminates the need for costly multi-valve installation such as high-low valves installed in parallel to meet varying flow requirements or multi-valves installed in series to reduce high inlet pressures to desired line pressure. The **EB-25 Plus** is a lead-free product

designed to service commercial and institutional water installations that experience wide variation in water demand or for applications where there are high inlet pressures.

PERFORMANCE: Adj. outlet pressure range 30 psi – 85 psi Factory set pressure 55 psi Maximum inlet pressure 230 psi (1600 kPa) Max operating temperature 149°F Service Water.

AVAILABLE CONNECTIONS - 2-1/2", 3", and 4" Flanged

SPEC SHEET - <https://www.cashacme.ca/wp-content/uploads/2020/05/eb25-plus-spec-sheet.pdf>

"As we face the challenges of the coronavirus pandemic and its impact on our daily lives, I have struggled with feelings of fear and helplessness on occasion. One of the many steps I've taken to restore hope and sanity is to fill my mind with inspiring words or motivational quotes. Use it as a daily mantra. Hopefully it puts a smile on your face!"

United Rentals ~ Are you looking for GOOD used Equipment?

We sell only top quality new and used equipment from manufacturers you can rely on for great products. However, even the best equipment may need unforeseen servicing or a part replacement. We created United Guard™ because we stand behind the products we sell.

With United Guard™, you can protect your investment and ensure your operations always run smoothly. The program covers the components of applicable* used equipment purchased from United Rentals. Product lists are available on a monthly basis, please contact John French for updated listings.

Risks and Exposures for Contractors... and what they can do to protect themselves

On a construction site or worksite, there are a lot of moving parts – and that includes all of the contractors, subcontractors, and tradespeople that are essential to any project. Risks, exposures, and liabilities for contractors have changed over the years, and could leave you unprotected if something does go wrong.

Contractors need to be aware of their responsibilities and accountabilities on a project before signing the dotted line. With Federated Insurance, you work directly with an industry expert who is committed to understanding the unique risks and opportunities associated with your business. A dedicated agent and risk management team will help ensure you get the right coverage.
