<https://www.facebook.com/mcahn.mcmaster/>

The MCAHN McMaster University Student Chapter serves as a mechanism for employer management recruitment and succession planning within our mechanical contracting industry. MCAHN continues to attract the best and brightest mechanical and civil engineering students who are overachievers while association employer members maintain guidance over our successful stewardship model through knowledge sharing, leadership mentoring and establishing annual programming now adapted to a virtual format. Online programming tools and methods of engagement have been identified with accessible virtual sessions expected to establish greater student reach. Employers guiding this year's McMaster University Committee are Kyle Getty (Chair) - Sutherland-Schultz, Graeme Langdon - Alberici Constructors Ltd., Sean Smithson - Modern Niagara Toronto Inc., Scott Wright - Gordon Wright Mechanical Ltd. and MCAHN Association Manager, Wanda Heimbecker as we recognize McMaster University Facility Advisor, Dr. Stephen Veldhuis's vital leadership role.

MCAHN Contractor & Associate Members Invited To Support & Join Student Chapter Project Resource Team

MCAHN association employer members are welcome to share their expertise as volunteer student resources mentors. Each year the team completes their time sensitive [MCA America Project Competition Bid](#) as the only Canadian team participant. Members are encouraged to contact MCAHN to join our volunteer resource team or should you wish to show your support by making a financial contribution applied towards programming costs.

Project Competition Bid REVEAL:

The project this year is a renovation of a 100 year old building at the University of Pennsylvania Museum and covers 10,000 sf of space. The Student Chapter team is taking care of the entire mechanical scope (plumbing, piping, HVAC, controls, etc). This includes the supply and installation of all HVAC and plumbing work. Any expertise in heritage building renovation, estimating and design would be appreciated by the team.

If you wish to reach out to the team directly contact Student Chapter President, Kailey Zeran at zerank@mcmaster.ca

Go Team Hamilton Niagara!
