Get Your Ducks In A Row! A 5-part Series For The Basics Of Adopting And Managing Information Technology

Companies are becoming more competitive by adopting information technologies. Yet more than 50% of IT projects fall short of expectations. How can your organization ensure the success of its next IT under-taking? Information technology is a product of science, but using IT effectively to increase efficiency, productivity and, profitability is truly an art.

This five-part series will give participants insights into trends and traps facing companies today, and best practice tips, tools, and techniques used to help IT implementations in small to mid-sized businesses.

Part 1 – To Be or Not To Be... Technology Driven

Part 2 – Doing IT Right!

Part 3 – Choosing Tech That Fits

Part 4 – Driving Innovation!

Part 5 – No Haystacks. No Needles, Either

"As we face the challenges of the coronavirus pandemic and its impact on our daily lives, I have struggled with feelings of fear and helplessness on occasion. One of the many steps I've taken to restore hope and sanity is to fill my mind with inspiring words or motivational quotes. Use it as a daily mantra. Hopefully it puts a smile on your face!"

United Rentals ~ Are you looking for GOOD used Equipment?

We sell only top quality new and used equipment from manufacturers you can rely on for great products. However, even the best equipment may need unforeseen servicing or a part replacement. We created United Guard™ because we stand behind the products we sell.

With United Guard™, you can protect your investment and ensure your operations always run smoothly. The program covers the components of applicable* used equipment purchased from United Rentals. Product lists are available on a monthly basis.

Record keeping best practices for contracting businesses

Contractors rely on their tools to help them get the job done right and on time. Unfortunately, there are times when an important piece of equipment may go missing because it's been misplaced between job sites or has been stolen.

To help you keep track of your equipment and protect against unexpected expenses and project delays, Federated Insurance has developed this risk management resource on record keeping best practices for contracting businesses.
