23% Safer New Safety Research & Construction Industry Leadership Team Announced

Meet the Mechanical Contractors Association Hamilton 2016-2017 Board of Directors. **DID YOU KNOW Unionized Contractors Are 23% Safer?** The results have just been released, as a 2 year study based on WSIB claims data from 45,000 construction firms, employing 1.5 million full time employees was compiled by the Institute for Work and Health's Union Safety Effect.

Read the study at:

<http://unionizedconstructionworks.com/safety/>

Learn why President, Jason Campbell remarks, "Every developer, general contractor and owner should review and understand this study"
